Free speech only if they are correct/useful for the BigTech?

Account Temporarily Unavailable.

This is how BigTech controls our "free" speech on social media:

➤ Censorship on Youtube because of vaccination side effects etc.

Youtube systematically deletes videos and accounts for any criticism of the Covid vaccine or for criticism of the measures in general.

➤ Apple and Google delete Parler from their App Stores

The app providers Apple and Goggle delete the app Parler from their app stores, so that no one can follow any system-critical politicians or lawyers, such as Donald Trump or Lin Wood. Furthermore, Amazon is deleting Parler's hosting servers, which means that this Twitter-like service could be shut down for a few days.

➤ WhatsApp forces release of personal data to FB

According to new policies, the messaging service messaging service WhatsApp requires its users to provide all personal data to Facebook with all personal data, otherwise the use is no more possible!

➤ Fact checker

The so-called fact checkers, which report and delete posts on Facebook, are controlled by the companies like Poynter & funded by TikTok and are thus under the control of China.

(Source: <https://www.naturalnews.com/2020-12-23-facebook-fact-checker-funded-by-chinese.html>)

➤ Twitter, Facebook and Instagram delete accounts of politicians

BigTech has deleted the American president from their platforms for allegedly inciting violence. The only misleading thing is why Antifa or other organizations can continue to use Facebook as a platform, without being deleted

be deleted?(Source: <https://www.stern.de/politik/trump--twitter-sperrt-kampagnen-account-und-facebook-loescht-video-9366112.html>)
